To: LAFCo Commissioners

From: Martha Poyatos, Executive Officer

Subject: LAFCo File No. 15-09—Extension of Water Service to Proposed Single-family Home at APNs 068-151-180 and 068-151-190, on Oak Park Way (Unincorporated San Mateo County) Pursuant to Government Code Section 56133 (0.4 acre)

Summary

Pursuant to Government Code Section 56133, Commission approval is required for extension of service by local agencies to territory outside an agency's boundaries. This section requires that the public agency apply to LAFCo by resolution on behalf of the landowner. In this case, the City of Redwood City has applied for extension of water service to a proposed single-family home on Oak Park Way in Unincorporated Emerald Lake Hills. A water connection is required by the County of San Mateo as a condition of a building permit. The project area is within the sphere of influence (SOI) of the City of Redwood City and the City's water service area. Commission approval is recommended.

Staff Report

This proposal was submitted by resolution of the City of Redwood City on behalf of the property owner as a condition of approval for a building permit by the San Mateo County Planning and Building Department. The subject area is within the sphere of influence of the City of Redwood City and the City's water service area; however, it is not contiguous to the City boundary and annexation is not feasible at this time. Please see the attached map illustrating the parcel's relationship to the City boundary. Section 56133 permits extension of water service in anticipation of future annexation.

San Mateo County Environmental Health reports that the City of Redwood City is the water provider, the County-governed Emerald Lake Hills Sewer Maintenance District provides sewer service in the area, and the proposal has no adverse environmental health significance. There are no registered voters in the subject territory. The property owner is responsible for connecting to the water main in Oak Park Way.

California Environmental Quality Act

The project is exempt from the California Environmental Quality Act (CEQA) pursuant to Section 15303, Class 3, relating to new construction of up to three single-family homes.
