---

My husband and I are very much against this proposed building. A 3 story building would go beyond the 28ft. height limit (if this is still in affect). We are opposed to an additional ADU unit (499 sf), which would be considered an additional unit on the property. If our neighbor was not allowed to add a unit on her double property why would a single property be given this benefit. This ADU unit could be used as a rental.

Thank you,

Steve and Jeannette Bass
