Hello,

I'm writing concerning the design review for [600 El Granada Blvd.](#)

I want to express how this house is a beautiful addition to the neighborhood. It is modest yet beautifully designed and well built. I particularly love the wood siding and black trim which makes it seem to blend in with the surrounding trees and environment. The natural elements are very aesthetically pleasing. Another design aspect I love is how private it seems from the front yet it has beautiful large windows to take in the magical view out the back of the house. We need more houses like this in the neighborhood. It's modern but subtle design suits the neighborhood and the feel of the Coastside.

Haley Peterson,  
El Granada resident
